Partnership of Hennepin County

## National Clean Energy Action Month

### ENERGY & WATER SERVICES

Did you know that heating costs are expected to increase about 35% this year? And consumer electric prices have jumped nearly 16%. Community Action Partnership of Hennepin County (CAP-HC) has several programs to help you avoid disconnection; maintain safe, continuous heat, electricity, and water; and help you reduce energy costs in the future. Read on to learn more.

#### ENERGY ASSISTANCE PROGRAM

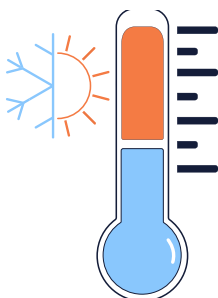

CAP-HC is one of the largest providers of energy assistance in Minnesota. Each year, our Energy Assistance Program (EAP) helps thousands of eligible Hennepin County residents by providing utility bill assistance grants directly to utility providers. The current program year runs from Oct. 1, 2022 through May 31, 2023.

More information about eligibility and how to apply at:  
[caphennepin.org/eap](https://caphennepin.org/eap)

#### CRISIS WATER ASSISTANCE PROGRAM

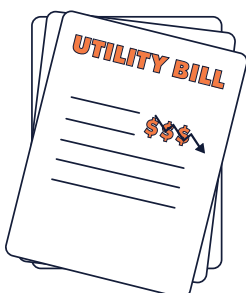

Crisis water funds are available for eligible households with a past due balance, disconnection of service notice, or water shut off. As with EAP grants, water bill assistance grants are paid directly to utility providers.

#### ENERGY RELATED REPAIR PROGRAM

The Energy Related Repair Program provides emergency repair or replacement of broken/ non-functioning heating systems, such as a furnace, for EAP clients.

To be eligible for assistance with your heating system you must submit an Energy Assistance Application and be approved.

#### WEATHERIZATION ASSISTANCE REFERRALS

Looking to permanently reduce your energy costs? Through the Weatherization Assistance Program, qualifying renters and homeowners can get free home energy upgrades to ensure they have a safe, healthy, and energy efficient home.
